

Unlock inclusive meetings for everyone with Teams Rooms and Magenium

As per Microsoft Work Trend Index Report, 52% employees are likely to consider shifting to hybrid or remote work. With Microsoft Teams, give everyone a 'seat at the table' and make sure everyone can be seen, heard, and fully participate from anywhere.

Help everyone be seen and heard

- Automatic audio and video focus on the person speaking
- Noise suppression and bandwidth optimization for clear voice quality

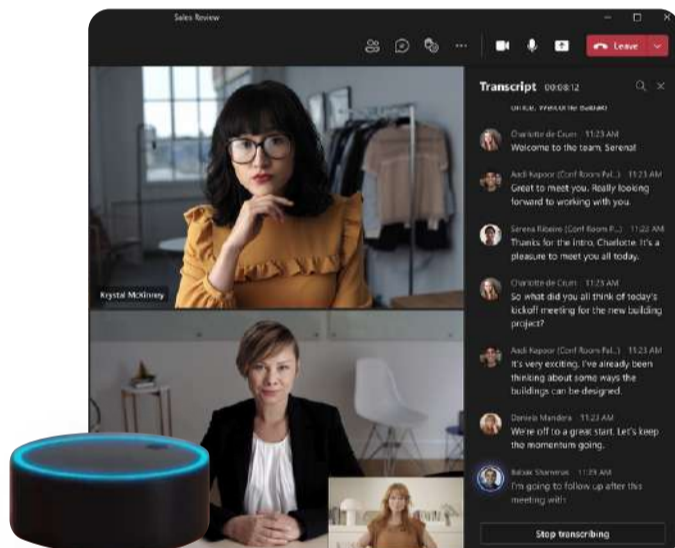

Foster connection with inclusive layouts

Multiple layout options to maximize screen real estate and see people, content, and chat simultaneously

Easily follow along

Intelligent speakers to identify the speaker and apply their name to the meeting transcript with voice recognition

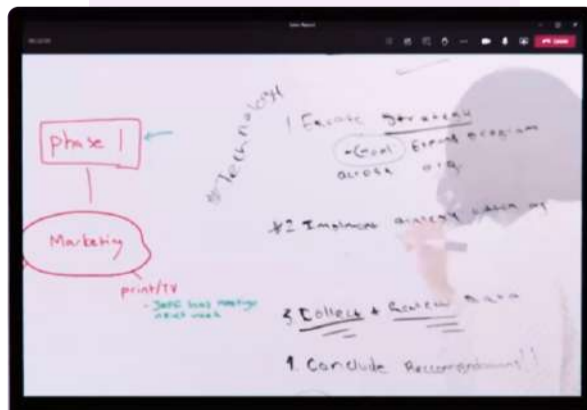

Establish your distinct presence, even in the meeting room

Join using personal devices (companion devices) and participate in whiteboarding, share live reactions and even share content while in a meeting room

Collaborate freely, in real-time, with everyone

Intelligent content capture to enhance the whiteboard view and bring it into the Teams meeting, while making everything else transparent

Accelerate the transformation of your meeting rooms

Get a rapid introduction of Microsoft Teams Rooms, along with support for organization-wide implementation
